Strategic Portfolio Management (SPM)

ensures your organization consistently invests in initiatives that drive growth and ROI through strategic alignment, optimized product delivery, capital planning, and data-driven risk management.

Why Cprime

Cprime is a global consulting firm helping enterprises leverage Strategic Portfolio Management, among other key capabilities, to boost ROI, minimize risk, and future-proof their business. We see SPM as a catalyst for sustainable enterprise maturity. With seasoned SPM practitioners and tailored solutions, we drive innovation and efficiency, ensuring your organization thrives in a rapidly changing market.

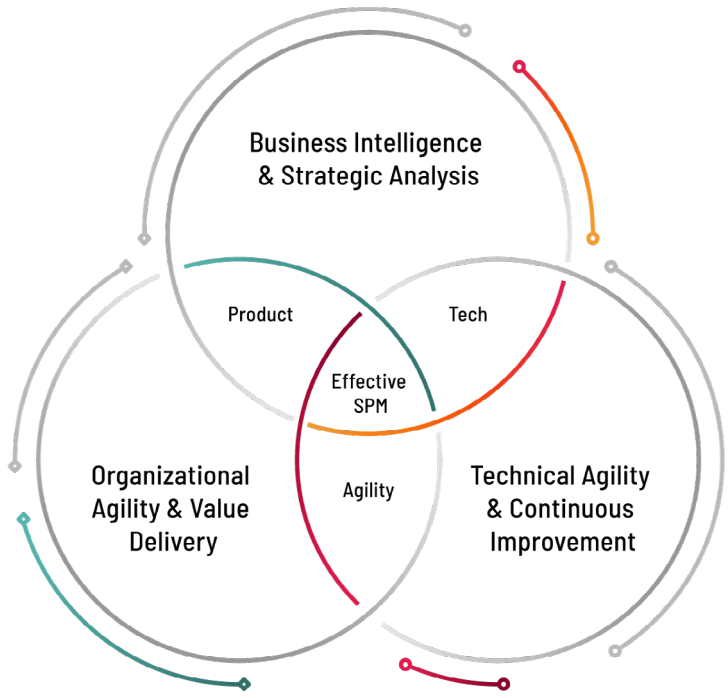

SPM Solutions

Implementing effective Strategic Portfolio Management can be a complex and overwhelming process. Expert guidance, the right tools, and a suite of optimized services can make all the difference. Here's how we can ease your pain and guide you to SPM success.

Our SPM Approach

We have the expertise, tools, and experience to guide you to strategic portfolio excellence:

- Strategic Alignment
- Risk Mitigation
- ◇ Investment Allocation
- Adaptability & Agility
- ◇ Communication and Collaboration
- ◇ Improved Decision-Making

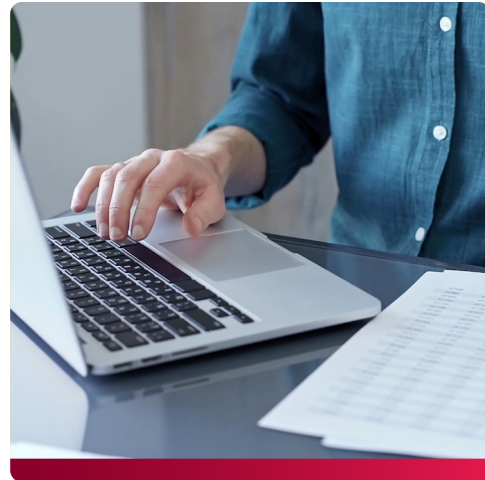

Strategic Alignment

Cprime's Strategic Alignment services ensure that your portfolio initiatives are prioritized and resources are allocated based on strategic value to achieve long-term goals. Our experts help you create a clear link between your organization's strategy and the projects being executed, maximizing the impact of your investments and driving overall business success.

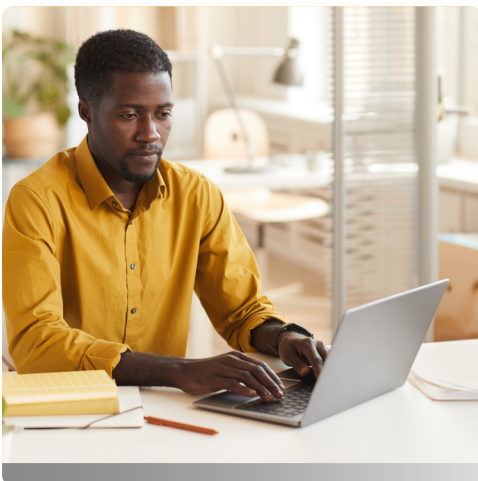

Risk Mitigation

Our Risk Mitigation approach leverages real-time AI-powered data visibility, transparent reporting, and robust compliance measures to reduce exposure and product failures. We help you implement proactive risk management strategies across your portfolio, ensuring that potential issues are identified and addressed before they impact your business outcomes, safeguarding your investments and reputation.

Investment Allocation

Cprime's Investment Allocation expertise helps you maximize ROI by analyzing needs, eliminating redundancies, and allocating resources to high-priority initiatives. We provide data-driven insights and the latest AI-enhanced tools to optimize your portfolio investments, ensuring that your organization's capital is deployed effectively to drive growth and innovation.

Adaptability & Agility

We enable your organization to respond quickly to market changes, customer demands, and new opportunities. Our Adaptability & Agility solutions help you build flexible portfolio management processes that allow for rapid pivots and realignments, ensuring your organization stays ahead of the curve in a fast-paced business environment.

Communication and Collaboration

Through a collaborative partnership, Cprime improves coordination and alignment among teams, executives, and stakeholders using enhanced Communication and Collaboration strategies. We implement tools and processes that foster transparency, facilitate information sharing, and enable seamless collaboration across your organization, driving better portfolio outcomes and stakeholder satisfaction.

Improved Decision-Making

Our Improved Decision-making solutions provide full-portfolio visibility for strategic, data-driven decisions on project selection and execution. We equip your leadership with real-time insights, predictive analytics, and scenario modeling capabilities, empowering them to make informed choices that drive your organization's success and competitive advantage.

Case Study

Chevron

Chevron faced siloed operations and misaligned IT initiatives, hindering their ability to adapt to market volatility and balance current operations with future investments. Cprime partnered with Chevron to transform their strategic portfolio management approach, resulting in significant improvements.

Enhanced Strategic Alignment

Connected individual initiatives to overarching goals, ensuring every project contributes to the company vision, saving time and money

Supported Data-Driven Decision Making

Provided leadership with real-time insights for informed strategic decisions to support greater agility

*"Our Agile transformation has revolutionized how we manage our vast portfolio. We've improved alignment across our digital platforms, enhanced our decision-making process, and significantly increased our ability to adapt to market changes. **This strategic approach is driving innovation and efficiency across Chevron's operations.**"*

Head of Program Management

Case Study

Wellstar

Wellstar Health System, a major healthcare provider with 30,000+ employees, faced challenges with its IT project management system. Multiple channels for project requests and lack of visibility into project timelines and dependencies caused confusion, ineffective communication, and suboptimal resource allocation. Cprime assisted WellStar in refining and enhancing its existing project management solution using ServiceNow.

19%
increase in project yield

17%
decrease in project completion time

16%
decrease in budget overages

*“Cprime’s expertise in implementing a tailored ServiceNow SPM solution has **transformed our project management processes**, significantly improving our efficiency and strategic alignment.”*
